

YESWANTH KUMAR R

Python Developer — Django Backend Developer

Mobile: +91 6381405117 **Email:** yeswanthkumar348@gmail.com
[LinkedIn](#) | [Portfolio](#) | [GitHub](#)

SUMMARY

Python and Django Backend Developer with hands-on experience in building database-driven web applications using Django, Django REST Framework, and MySQL. Skilled in REST API development, authentication and authorization, CRUD operations, and backend logic implementation. Strong problem-solving ability with experience delivering end-to-end backend solutions through personal projects. Seeking an entry-level Python/Django Developer role.

TECHNICAL SKILLS

Programming Languages: Python, SQL
Backend Frameworks: Django, Django REST Framework
Backend Skills: REST API Development, Authentication & Authorization, CRUD Operations, API Integration
Databases: MySQL, Database Design, SQL Queries
Frontend: HTML5, CSS3, JavaScript
Tools: Git, GitHub, VS Code, PyCharm
Concepts: MVC Architecture, SDLC, Debugging, Performance Optimization

PROJECTS

Job Application Tracking System (ATS) | [GitHub](#)

- Developed a scalable Django-based Applicant Tracking System to streamline job postings, candidate applications, and hiring workflows.
- Implemented RESTful APIs using Django REST Framework to manage application status transitions and recruitment processes.
- Enforced role-based authentication and authorization for Admin and HR users to ensure secure access control.
- Integrated Google Forms and Google Sheets for automated candidate data collection and real-time data synchronization.

HR Management System | [GitHub](#)

- Built a comprehensive Django-based HR Management System to manage employees, departments, and organizational data efficiently.
- Designed secure login and role-based access control using Django's authentication framework.
- Created normalized relational database models to maintain data integrity and support scalable HR operations.
- Developed admin dashboards with full CRUD functionality for streamlined HR administration.

EDUCATION

Panimalar Engineering College Bachelor of Engineering (Mechanical); GPA: 8.17	Chennai, Tamil Nadu June 2018 – August 2022
---	--

CERTIFICATIONS

Master Data Science Program – GUVI Institute Certificate	Jun 2024
Machine Learning with Python – Cognitive Class Certificate	Dec 2024

WORK EXPERIENCE

Python Full Stack Developer Intern Palle Technologies	Oct 2025
--	----------

- Completed hands-on training in Python, Django, REST APIs, MySQL, HTML, CSS, and JavaScript through real-time project development.
- Built full-stack web modules including authentication, CRUD operations, and database integration.
- Gained practical exposure to debugging, deployment workflow, and backend architecture design.

Manufacturing Engineer Stanadyne India Pvt Ltd Experience Letter	Jun 2022 – Feb 2024
---	---------------------

- Conducted calibration and functional testing on rotary fuel injection pumps following QA standards.
- Maintained and analyzed production and testing data for 200+ components using Microsoft Excel, improving traceability and reporting accuracy.
- Performed root cause analysis and technical troubleshooting, contributing to reduced rework and process deviations.
