Chennai / Bangalore | Open to Relocation

Professional Summary

Entry-level Python Backend Developer with hands-on experience in Django, REST APIs, and MySQL, along with foundational knowledge of Machine Learning and Data Science concepts. Strong in problem-solving, data preprocessing, and model building using Python. Actively seeking a developer role where backend and data-driven skills can be applied.

Skills

Programming Languages: Python

Backend Development: Django (MVT Architecture, ORM, Authentication), Django REST Framework, REST APIs

Frontend Technologies: HTML, CSS, JavaScript

Databases: MySQL, SQLite

Data Science & ML (Basics): Data Cleaning, EDA, Regression Models, Model Evaluation

Tools & Platforms: Git, GitHub, Visual Studio Code, PyCharm, MySQL Workbench

Core Concepts: OOP, CRUD Operations, MVC/MVT Architecture, Role-Based Access Control

Projects

HR Management System (Django, MySQL)

[GitHub Link](#)

- Built a role-based HR management system handling authentication, authorization, and admin workflows.
- Designed relational MySQL database schema and implemented secure CRUD operations using Django ORM.
- Developed reusable views and optimized database queries to improve backend performance.
- Implemented login, session handling, and role-based access control to ensure data security.

Gold Price Predictor (Machine Learning, Python)

[GitHub Link](#)

- Built a regression-based machine learning model to predict gold prices using historical data.
- Performed data cleaning, preprocessing, and exploratory data analysis (EDA) using Pandas and NumPy.
- Trained and evaluated models using scikit-learn and saved the model using Pickle/Joblib.

Personal Portfolio Website (HTML, CSS, JavaScript)

[GitHub Link](#)

- Built a responsive portfolio website to showcase projects and GitHub repositories.
- Implemented clean UI design, mobile responsiveness, and smooth navigation.

Training and Certifications

Python Full Stack Development – Palle Technologies, Bangalore (6 Months)

Master Data Science Program – GUVI Institute, Chennai (6 Months) Certificate: [View Certificate](#)

Experience

Manufacturing Engineer - Stanadyne India Pvt Ltd

June 2022 - Feb 2024 | Career Transition into Python Backend Development

- Worked in a process-driven environment requiring analytical thinking and problem-solving
- Experience in documentation, quality checks, and workflow optimization
- Skills transferable to backend development: logic building, debugging, and structured thinking

Education

Panimalar Engineering College, BE in Mechanical Engineering

2022

- CGPA: 8.17/10
